connections.

PIKO M2M Service – the smart connection

PIKO M2M Service offers secure automated data transfer over the mobile network between PIKO inverters and the PIKO Solar Portal.

- Future-proof professional M2M (machine-to-machine) communications package
- Mobile communication link monitored by KOSTAL
- Optimum network coverage
- Protection against theft, misuse and excessive costs
- Can be used in 28 European countries
- No monthly payments, just a one-off package price
